## CONTENTS

	Page
1. <b>Rheological Behaviors of Some Libyan Waxy Oils and their Blends.</b> M. Ali El Bousiffi, F. El Beshti, A. Derbi, S. Sinan, PRC, Libya.	1
2. <b>Elementary Mathematical Models of Permeability in Clean Clastic Rocks,</b> <i>G. Szigeti, PRC, Libya.</i>	14
3. <b>The Amal Field – Geology and Reservoir Engineering Aspects in Overview.</b> R. Finsterwalder, Veba Oil Operations, Libya.	22
4. <b>Effect of Reservoir Inclination on the In Situ Combustion Process.</b> <i>Mahmoud M. Hwessa, Veba Oil Operations, Libya.</i>	32
5. <b>A Simple Correlation for Estimating Pressure Drop in a Horizontal Well.</b> N. Bjorndalen and M. R. Islam, Univ. of Regina, Canada.	41
6. <b>Organic Matter in Petroleum Sludges: A Source of Useful Materials.</b> <b>Part 3: Separation of Aromatic Concentrates from Sludge Maltenes.</b> L. H. Ali, M. N. Oun, M. M. Aban, T. I. Esussi, PRC, Libya.	49
7. <b>Organic Matter in Petroleum Sludges: A Source of Useful Materials.</b> <b>Part 4: Preparation of Petroleum Sulfonate.</b> L. H. Ali, M. O. Al Darwish , A. A. Shebli and L. Al-Humarani, PRC, Libya.	61
8. <b>Thermal Fracturing vs. Matrix Water Injection BU-Attifel Field Experience.</b> <i>R. Maroli, M. Rampoldi, A. Asker, Agip Oil Co. Ltd., Libya.</i>	71
9. <b>Heavy Oil as Future Potential in Egypt's 21<sup>st</sup> Century Energy Resources.</b> S. E. Shaheen, M. A. Badawi, EGPC, Egypt.	76
10. <b>Recent Advances and Challenges in Reservoir Characterization.</b> <i>Jean Burrus, Beicip-Franlab / IFP Group, F. Kalaydjian, IFP, France.</i>	86
11. <b>Eigen Filtering of Seismic Data.</b> Atman Guerchouai, Sonatrach-Algerian Petroleum Institute, Algeria.	97
12. <b>Oil Flow Rate and Density Measurements Using Modulated Laser Beam Technique.</b> <i>M. E. Al-Daghistani, M. M. Abousetta, H. S. Al-Amir, Nassir Univ., Libya.</i>	107
13. <b>The Significance of Selected Defects on the Pipeline Integrity Determination.</b> O. K. Khalayef, T. M. Belashe, E. Raghie, Agip Oil Co., Libya.	116
14. <b>Implementation of Enhanced Oil Recovery Techniques in the Arab World is Questioned.</b> <i>Ali H. Al-Khafaji, PRC, Libya.</i>	124
15. <b>Inorganic Scale Precipitation Problem in Amal Field, Libya.</b> <i>H. Belhaji, PRC, Libya.</i>	134

16. **Smart Well / Intelligent Completions- The Answer to the Management Control of Fines Migration?** 145  
M. Babs Oyenyin and A. T. Faga, The Robert Gordon Univ., U.K
17. **Improving Gas Lifted Well Performance Using Nodal System Analysis.** 152  
Z. Turzo, Univ. of Miskolc, Hungary.
18. **The Use of Diagnostic Techniques to Determine Candidate Wells for Shut-off Treatments.** Alan Saxon, Schlumberger Oilfield Services, Libya. 161
19. **Marginal Oil Fields and Legislations: Challenges and Opportunities.** 182  
S. E. Shaheen, EGPC, Egypt.....
20. **Bacterial Corrosion Study on the Exploration Well KHL#1.** 201  
*Mustapha Nasr-EddineBOUCIF, Ministry of Energy, Algeria.*
21. **An Environmentally and Safe European Tanker.** 210  
Mohammed H. Radhi, Berlin Univ. of Technology, Germany.
22. **Structure Characterization of Libyan Crude Oils.** 220  
*G. AL Hakimi, . Aber Abdel Kader, M. Abdel Aziz, S. Gebril, RASCO, Libya.*
23. **Impact of Legislation on New Product Specifications as a Challenge Facing Ras Lanuf Topping Unit.** Ahmed M. Eltief, 229  
*Khalifa H. Kraym, RASCO, Libya.*
24. **High Viscous Oil Well Production Technology.** 237  
I.I. Radchenko, N. N. Lylak, V. N. Bolbas, Y. I. Radchenko, Ukr OGI, Ukraine
25. **Automatic Water in Oil Emulsion Stability Tester.** 243  
Kaddour. Benaissa, Ahmed Rachide Lakhdar, Algerian Petroleum Institute, Algeria..
26. **Hydrodesulphurisation of Gas Oil Using Co-Mo/Alumina Catalyst.** 249  
M. M. Elgarni and K. Issa, PRC, Libya.
27. **Energy Conservation in the Egyptian Refineries.** 255  
*Hany Al-Nakeep, Salah A. El-Toumy, Mamdouh Nagaty, OIEP, Egypt.*
28. **Typical Applications of Gas-Phase Polyethylene Grades Produced at Rasco Polyethylene Plant.** Ahmed M. Eltief, RASCO, Libya. 269
29. **Evaluation of a Used Oil Deterioration Using Microwave Technique.** 281  
Al-Mously, Nassir Univ., Libya.
30. **Acoustic Exploration for Partially Buried Pipes.** 290  
*Z. K. Alhamdani, M. M. Abousetta, K. F. Omran, Nassir Univ., Libya.*
31. **Successful Control of a Blowout Resulting from Leakage of a Corroded Production Casing in Nasser Field.** S. Sheibani, A. Cheghoum , M. Metwally 299  
*Sirte Oil Company, Libya.*
32. **Hands-On Courses in Petroleum Engineering to Improve Performance.** 309  
J. H. Abou-Kassem, Univ. of Emirates, UAE, M. R. Islam, Univ. of Regina, Canada.

33. **Characterization of Imported Glass Fibre Reinforced Epoxy Pipes Used in Crude Oil Transportation and Comparison with Steel Pipes.** 323  
R. Hachichi, S. Fellahi, API, Algeria.
34. **A Step Forward in Well Control.** 335  
M. Bizanti, M. N. Shagour, S. S. Ben Daw, M. T. Said, Univ. of Al- Fateh, Libya.
35. **Fast and Accurate Reservoir Fluid Information – A End to Compromise.** 349  
R. Martin, W. Smith, The Expro Group, U.K.
36. **High Pressure Combustion Tube Studies of Medium and Light Oil.** 358  
S. El-usta, M. Greaves, Waha Oil Co., Libya.
37. **Design and Implementation of a Plug-In Geophone Testing Board for PC-A/EISA Bus.** 369  
Kaddour Benaissa, Adnane Mouffok, Algerian Petroleum Institute, Algeria.
38. **A Fuel Cell as a Petrol Substitute; A Feasibility Study.** 377  
Salah I. Al-Mously, Z. K. Alhamdani, Nassir Univ., Libya.
39. **Study of the Hydrodynamic Parameters in Fixed-Bed with Down-Flow Concurrent Gas-Liquid.** 385  
B. Bouchekima, Univ. of Blida, M. Diboun, USTHB, Algeria.
40. **Maximizing Profits From Sucker-Rod Pumping Installations.** 390  
Gabor Takacs, Univ. of Miskolc, Hungary.
41. **Sulfate Reducing Bacteria, Feiran Fire Fighting System [Corrosion Control(Internal Corrosion Case Study)].** 400  
S. M. El-Wakel, Petrobel, Egypt.
42. **Demand Side Management Options in Petrochemical Industry the Egyptian Petrochemical Company (Case Study).** 409  
*Hany Al-Nakeep, Mamdouh Nagaty, Salah A. El-Touny, OECP, Robert Chu, OBI, Egypt.*
43. **Control of a Binary Distillation Tower under Plant Parameters Variation.** 416  
Ali A. Hasan, Nassir Univ., Libya.
44. **Fast Track Supply of a 50,000 BOPD Modular Production Facility to Accelerate Initial Production.** 427  
K. Francis, R. Martin, The Expro Group, Mehdi Samama, Repsol oil Operations, U.K.
45. **Multi-Stage Primary Cementing Job Software.** 438  
*O. H. El-Ayadi, N. S. El-Natah, T. R. El-Ghazawi, Univ. of Al-Fateh, Libya.*
46. **Review of Artificial Lift in Egypt.** 456  
S. E. Shaheen, EGPC M. A. Naguib, SUCO, N. El-Emam, A. Bayoumi, Al-Azhar University, Egypt.
47. **Application of the GPR to Some Problems Related to Oil Exploration and The Environment.** 468  
*Said I., Nassir Univ., Libya.*
48. **Geochemical Examinations of some Oil-Field Brines, Sirte Basin, Libya.** 477  
Refai Taher Refai, El-Fateh Univ., Libya.

49. **The Poseidon Project: A Technology Application for Marginal Fields.** 492  
Isaac Rodriguez, Repsol Exploration. S. A., Spain.
50. **Effect of Cold Work on the Sensitization of 304SS Specimens.** 502  
Nuri A Zreiba, L. Bashir, N. M. Elmozgi, Univ. of Al-Fateh, Libya.
51. **North African Sabkhas and Lagoons Compared to those of the Arabian Gulf.** 512  
*I. M. West, Univ. of Southampton, U.K., M. I. Lashhab, Univ. of El-Fateh,  
I. M. Muhan, Waha Oil Co., Libya.*
52. **Numerical and Experimental Modeling of Viscous Fingering in  
Two-Dimensional Consolidated Porous Medium.** 531  
A. Naami and R. Islam, Univ. of Regina, Canada.
53. **Optimization of Perforations' Density in Oil Wells.** 554  
*M. Nasr, Aber Al Waleed, Univ. of Al-Fateh, K. Samusi, Yeba Oil Operations, Libya.*
54. **High Performance and Decoupling Control of a Distillation Column Unit.** 563  
*Ali A. Hasan, Nassir Univ., Libya.*
55. **Drilling Fluid Mud Filtrate and Cake Resistivities Relationship  
Investigation.** 581  
*O. El-Ayadi, H. Fekini, N. Arrwiee, Univ. of Al-Fateh, Libya.*
56. **The Rheological Properties of High Concentrations of Carboxymethylcellulose  
Solutions.** 594  
M. Edali and M. N. Esmail. Montreal, Canada.
57. **The Use of Natural Gas as a Vehicle Fuel & the Egyptian Experience.** 609  
A. Barakat, OECF, Egypt.
58. **Prediction of Future Performance of Abnormally Pressured Gas Reservoirs.** 620  
Jawas Al-Assal, Bright Star Univ., Libya.
59. **Global Oil and Gas Prospects - The Role of the Mediterranean.** 628  
John E. d'Ancona, Spearhead Exhibitions Ltd. U.K.
60. **Thermodynamic Model for Strontium Sulfate Scale Prediction.** 633  
*H. Al-Ghadamesi, Al Fateh Univ., Libya.*
61. **Cathodic Protection vs. Cathodic Prevention for Corrosion Mitigation  
and Rehabilitation of Reinforcing Concrete.** 641  
*F. a. garman, Hhiger institute of  
industry, Misurata, Libya.*
62. **Reduction of Emissions from Vehicle Fuels for a Cleaner Environment.** 649  
O. Mekhatrash, PRC, Libya..
63. **The Effect of Corrosion Fatigue on the Ph and IR-Drop of Stainless  
Steel 318 in Deionised Water.** 662  
*Fathi M. Atghor, R. H. Tewir, Zaki M. Yousef,  
Tajoura Research Centre, Tripoli, Libya...*
64. **Multi-beam ultrasonic flow meter for custody transfer of liquid hydrocarbons,** 667  
*H. Hofstede, H. Danan and K. Altometer, Netherlands.*

65. An overview of co2 flood project in the arabian gulf oil company. 676  
*O. Abdul Karim, S. F. Saad, K. Krizmanic and N. Mesmari. Arabian Gulf Oil Co. Benghazi, Libya.*
66. A Novel Technique for cleaning horizontal wellbores. 704  
*J. Paddock and M. R. Islam. Univ. of Regina, Canada.*
67. Demand Side Management Opportunities in Petroleum Sector 713  
*Alexandria Petroleum Company (Case Study). Hany Al-Nakeep, OCEP, Robert Chu, OBI, Salah A. El-Touny, OCEP, Egypt.*
68. Corrosion Control in Nile Delta Fields " Case Study ", 725  
*Y. El-Faky, H. El Kordy, A. F. Khalid, PETROBEL Co., Egypt.*
69. Display technique of Ultrasonic testing results. 735  
*S. F. Al Amari, RASCO, Libya.*
70. Lithofacies Analysis in Ghadames Basin Made From Two Well Logs, 745  
*O. Suliman, A. A. Abdalha, PRC, Libya.*
71. Coating the Internals of Gas Transmission Pipelines - Are there any Benefits? 755  
*Lars Liisberg-Larsen, Mia Bacher Olsen, Hempels Marine Paints A/S- Denmark.*
72. Improved proven power transmission technology in oil and gas industry. 759  
*M. Kooister, Voith, Germany.*
73. WDDM Gas Field Reservoir Simulation Study & Forecast Economic Performance. 769  
*S. A. Kassem, EGPC, Egypt.*
74. Chloride Stress Corrosion Cracking of Insulated 304 Austenitic Stainless Steel Pipe - A Case Study. 779  
*A. El Houd, F. El Shawesh, PRC, O. El Ragai, RASCO.*
75. An OFFSHORE OIL FIELD DEVELOPMENT IN Congo. 787  
*G. Agnello, ELF Exploration production, France.*
76. Effect of Temperature on the Passive Film Properties and Pitting Corrosion Resistance of 316L Stainless Steel in Chloride Solution. 791  
*A. El Houd, PRC, Libya.*
77. OMV's Matzen Project, the Challenge to Extend the Life of a 50 year Oilfield. 798  
*Christopher Veit, Reinhard Fuchs, OMV, Austria, Rob Finley, Austin, U.S.A....*
78. A New Water Saturation /Height Model and Some Applications in Reservoir Evaluation. 808  
*P. Mitchell, BP Amoco Exploration, UK.*
79. Enhancing Steam Drive Performance by Comingling Carbon Dioxide. 819  
*Said M. Edbeib, Univ. of Al-Fateh, Libya.*
80. Maintenance Management Systems: Objectives & Solutions. 841  
*Abdullatef Elgadi, TSE Group, Libya*
